From Bruno Gmuender : Kissed: Sensuality in Gay Art before purchasing it in order to gage whether or not it would be worth my time, and all praised Kissed: Sensuality in Gay Art:

0 of 0 people found the following review helpful. Just OkayBy Mark TwainI wish the product description had said: includes nudity. I still would have purchased the book, but I think it's important to explicitly state there are nude photos, not just "from sensual and erotic to wild and debauched". , you should do better.Layout: Many of the photos are placed across two pages, which means a good chunk of the photo is lost in the fold of the book. It's hardly erotic to display what looks like a man's detached legs dangling over the edge of a bed.Diversity: You wish! Of the 260 photos, only about 20 appear to contain non-white men - that's less than 8 percent of the book! If that's something you care about, this book may not be for you. Even as a white man, I was disappointed.0 of 0 people found the following review helpful. Softer side of male loveBy Thomas MooreThis is an enjoyable book showing that male love can be strong and affectionate at the same time. Also in various vignettes.1 of 1 people found the following review helpful. `A kiss is just a kiss, A sigh is just a sigh..."By Grady HarpPerhaps that is true in CASABLANCA or in the song by Herman Hupfeld circa 1931, but here in this highly sensuous coffee table book edited by Stephan Niederwieser there is a lot more to a kiss than a `just! Bruno Gmünder Verlag books always push the envelope, but this book focuses not on the physicality of encounters of the body, but instead draws attention to the variety of ways the kiss can happen. The art is by photographers of the highest rank in the Bruno Gmünder echelon and each in his own style brings together lips and faces and, yes, at times more of the bodies providing a complete spectrum of bussing.The books opens with a sly Foreword by Jeffrey Essmann who offers lessons in the erotica of the kiss, including of course that shy first kiss, the kiss of love, and the kiss of passion. And then the book bounces into 260 pages of color photographs by the likes of Jeff Palmer, David Vance, Justin Munroe, Howard Roffman, Sandor Bross, Ed Freeman, River Betancourt, Mark Grantham, Jay Diers, Jay Jorgenson, Joseph Sinclair, David Rothwell, Frank Louis - 48 in all. It is multiracial, varying body types, public and private, and in all, it is a collection that will be returned to many times. The models vary in type but every one of them is a winner. This is a very successful book, audience directed for now, but with the gradual acceptance of movies such as `A Single Man' etc there will be an enhanced audience of women who want to know how men react to the art of the kiss. Grady Harp, July 12

But it was only a kiss! -a sentence you won't ever say again after having leafed through this book and marveled at these unique kissing pictures. How much a kiss can mean and how much a kiss is a universe of its own-that is pointed up in this volume on 260 pages by more than 40 photographers. From sensual and erotic to wild and debauched: Here you'll find everything that can happen between lips. Kissed is anthology that makes you find truth in the words of

Mark Twain who once said: A kiss is something you need both hands for. A" Well, that still says it best.

About the Author Stephan Niederwieser is the best-selling author of several sex guides and five novels. He is a trained natural healer and psychotherapist, and conducts family constellation workshops. He lives in Berlin, Germany. Available in English are his sex guides "Bend Over! The Complete Guide to Anal Sex," "Blow Me! The Complete Guide to Oral Sex," and "Do It Yourself! The Complete Guide to Masturbation."
